Things people
hate

The way of life of seals

Seals are extremely agile in water

Their swimming is also exceptional

They can swim almost 20km per hour

Needless to say, their bodies have evolved this way to adapt to their aquatic environment

To reduce water resistance, seals have a streamlined body with no protrusions.

However, for a seal that lives in the sea

Especially when hunted by their natural enemies like polar bear's will...

Speed 40~60km

when it goes on land it will...

be quick

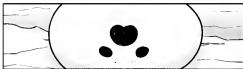

will... FLIP FLIP

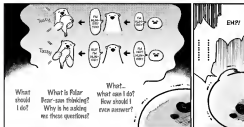

That's how it is.

Your feelings

The stars are beautiful

Praying to the stars

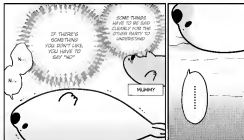

French soup

Things people don't like

KOISURU★ SHIROKUMA

Page 27: The seal confuses スキ (love) with イモ (potato)

Page 28: "The stars are very beautiful" this is an allusion to a popular line of Natsume Saseki "The moon is beautiful, right?"

That for him is a way of saying I love you.

Page 32: ほんともう γ フォンドヴォ The bear actually says "Fond de veau?" but since both are French soups, it was changed to "Consommé".
